Full Size Rocker Switches

This heavy-duty, full size rocker switch is versatile enough for numerous applications. Rocker frame and actuator are manufactured from glass-filled nylon, with the case molded from black nylon (flammability rating: UL 94 flame class 94V-2) and terminals are manufactured from brass material. A secondary gasket is molded into the switch base to provide added moisture and dust resistance. These switches are ideal for commercial applications, motor controls, trucks, buses, van conversions, marine panels and automotive applications. **Recommended mounting hole: .830" (+ 0.015) x 1.450" (+ .005).**
